Louis H. Thurow, extensive box manufacturer, was born in Pomerania, Germany, September 14, 1860, son of William and Wilhelmina (Voght) Thurow. He received a good education in the old country and learned his trade as a cabinetmaker. At the age of eighteen he came to Winona from Germany, and secured work in a flour mill for several years. Then he entered the employ of the Bohn Manufacturing Co., and remained in its employ for twenty-seven years. In 1907 he started a box manufacturing plant at 625 West Tenth Street. The business grew immediately, and is now one of Winona's large industries. The present shops are located on West Third street, at the corner of Wilson. Mr. Thurow is the sole owner and proprietor. He manufactures wooden boxes, box "shocks," crates, beer and soda cases, window and door frames, poultry coops and the like. Mr. Thurow is a member of the Dryads and of the Eureka Club. The subject of this sketch was married in May, 1885, to Emma Staack, daughter of M. Staack. Mr. and Mrs. Thurow have seven children: Herbert, Otto, William, Clara, Laura, Gertrude and Hildred. William Thurow died in Germany, in 1870, at the age of forty-six years. His wife Wilhelmina died in Germany, in 1911, at the age of sixty-eight. Louis H. was the only one of the family who came to America.

AN INDUSTRY FOR WINONA

A Small Factory is to be Operatin in
This City by Two
Local Men

MAKE EUREKA MOP WRINGER

The Device is Practical One and is
Being Received With Much Favor
--- Many of the Machines Are Now
in Use Here.

A new manufacturing industry is now being started in Winona on a small scale with every prospect that it will grow to much larger proportions. The gentlemen back of the enterprise are L. Thurow and Arthur J. Smith, and the article which they have started to make is the Eureka mop wringer. The device is a practical one and has already found much favor with those who have given it a trial. It is the invention of Mr. Thurow. The first machine was made in Winona about four months ago.

The many good points of the device and the favor with which it has been received have encouraged Messrs. Thurow and Smith to engage in its manufacture. Up to the present time they have had the machine made at some of the woodworking plants in the city, but now they have decided to engage in its manufacture themselves, and have accordingly proceeded to the erection and equipment of a small factory building and expect to begin making the mop wringers in a about a week or two. The factory building is located on West Howard street and is a frame structure 20 by 35 feet in size and two stories high. The manufacturing business will be carried on on the ground floor and the second floor will be used for storage. An electric motor will furnish the desired power.

There are already fifty of these machines in use in Winona and these are creating a demand for more. At the courthouse and the Winona they are in use. A few shipments have been made outside the city. Withe the completion and equipment of the factory building an endeavor will be made to push the sale

Ancestors of Larry David WILSON

of the machines, and it is expected the business will grow very considerably in the near future.

The Eureka mop wringer is buildt and designed for speed, durability, service and strength. With it a wonderful pressure is produced with only light leverage power aided by four rollers. Large rollers spread the mop and small rollers regulate the speed. The machine is being made in three different sizes, ten inch for flat or residnece use, twelve inch a medium size for general work, and the large fourteen inch for all around work. The movement of the mop thru the rollers is produced by turning a small crank, doing away with the use of both feet and also the strain of the back. The two main rollers of the wringer are of hardwood. The first or feed roller is deeply corrugated as to more easily raise the mop thru the rollers. Both rollers are deeply grooved on each side crossways so to prevent the water from flowing over the edges of the pail. The pail may be quickly changed or emptied without moving any part of the wringer.

From the Winona Republican-Herald, 17 Oct 1907, p. 8:

INDUSTRY OF BOX MAKING

Has Been Started in Winona and Ap-
pears to Have Bright
Future

STARTED BY LOUIS THUROW

If it Secures the Home Patronage it
Deserves it Should Become a Very
Successful Undertaking - On West
Howard Street

A manufacturing industry which has been started on a small scale but for which there appears to be a large field if the encouragement of home patronage is bestowed is being carried on by Louis Thurow at 625 West Howard street. Mr. Thorow has engaged in the manufacture of boxes. He has since the winter been associated wtih A.J. Smith in the making of patent mop wringers, and now the box making will be carried on at the same place, but it is expected to enlarge the industry considerably.

While Mr. Thurow has been interested in this business for some little time the work has been done by Charles Beeman, but now Mr. Thorow has resigned his poission with the Empire Lumber company and is giving his whole time to this work. At present Mr. Beeman is not there owing to an injury he recently received to one of his fingers, but when he has recovered from this he will return.

The box factory is now at work on a large order received from the Interstate Packing company for crates for its products. The demand for these creates will be more or less permanent and will alone give quite a little business to the factory. THre are many other manufacturing institutions here which use a good many boxes in the shipment of their product and Mr. Thurow proposed to docnuct his buisness in such a way as to merit and receive this patronage.

The quarters at present occupied on West Howard street are a two story barn. The lower floor of this has been fitted up into a workshop, and the upper floor is used for storage. FOr the present it is large enough to meet needs, but if the business grows enlarged quarters will be provided as necessary. Mr. Thorow, who has carefully looked over the ground, figures that there is plenty of business in this line in Winona to give steady employment to at least eight hands and he hopes to work up to the point where this number will be engaged.

Meanwhile the manufacture of the mop wringers will not be abandoned. An extended writeup of these wringers and their particular merits was given in these columns last spring. There are quite a number of these wringers now in use in Winona and they have received the hearty endorsement of those using them. As their merits become better known outside the city the demand for them is expected to increase. As yet they have been but little represented on the road. But by pushing their sale the number to be made could be increased quite materially

Many a large manufacturing institution has grown from such a small beginning as this and Winona

desires to encourage small as well as large manufacturing institutions.

From the Winona Republican-Herald, 13 June 1908:

Dakota

Another of the rapidly diminishing members of Winona county pioneers has passed away. James G. Wilson died at his home in Dakota Valley June 7 1908 at the advanced age of seventy-six years, three months and twenty-four days. The deceased was born at Plattsburgh, N.Y., and came to Minnesota in 1854 and opened the farm which he has occupied ever since. He was joined in marriage to Sarah B. Brown a sister of the late Nathan Brown, the pioneer settler in Dakota. The marriage took place in 1852. Of this union were born thirteen children, three of whom are dead. The first Mrs. Brown died quite a number of years ago and on June 6, 1907 Mr. Wilson contracted a second marriage with Emma Einfeldt of La Crosse who survives him. The funeral services were held June 9, conducted by Rev. C. F. Dykeman. Interment was made in the cemetery about a mile and a half west of the village of Dakota, which was laid out as a burial place a number of years ago and is located near the residence of the deceased. It is one of the most beautiful and picturesque places in the west. Because the house was unable to hold the assembled number of people the services were held in the open air on the cemetery grounds. The grave was decked with garlands of flowers placed there by those who loved him best. Kind friends sang hymns of comfort and Rev. Dykeman pronounced and the people returned to their homes. Seven of the children were present at the funeral. Mr. Wilson possessed a robust and vigorous intellect, but lived rather a retired life, fond of horticulture and gardening, intimately known to but few and esteemed most of his old neighbors and associates, who with him came here in territorial days and labored to make Minnesota and abode of an industrious, intelligent and happy people.

In the Wilson cemetery under the huge boughs of the large oak trees which cover the place, Mr. Dykeman said in part to the large crowd of mourners and friends, that he thought the service would be more impressive and appropriate right out in the open air, and in God's own temple he read a short sketch of Mr. Wilson's life and religious belief which was a Universalist. He then took up his theme which was to avoid or lessen future punishment; Justice and Truth doing all the good we can, and making all as happy as we can. He said Universalists were scarce and far between, and he believed that he was the only Universalist minister in southern Minnesota. Mr. Dykeman spoke as only Mr. Dykeman can. It has seldom been or privilege to listen to more truth. The choir were Wm. Winter, Mrs. Wolf, and Mrs. Workman.

General Notes: From The History of Winona County Minnesota, compiled by Franklyn Curtiss-Wedge, Editor in Chief, Assisted by William Jay Whipple, Revier of Manuscripts and a Large Corps of Local Contributors, Illustrated, Volume II, Chicago, H.C. Cooper Jr. and Co., 1913 (Copy in Minnesota Historical Society, St. Paul), page 694.:

Mathias Staack, a pioneer contractor and builder of Winona, was born in the northern part of Germany, June 16, 1826, and came to America as a young man. After landing in New Orleans, he came up the river to Davenport, where he had a friend, arriving in that city in the summer of 1852. There he spent three years. Then he went to Comanche, in the same state, and there on December 5, 1855, he married Mary Peterson, who was born July 26, 1836. In 1856, he was persuaded by E.A. Gertzen to come to Winona. For a time he lived with Mr. Gertzen, and then erected at 522 East Fifth Street, the cozy little house in which he has since made his home. For ten years he engaged in the grocery business at the corner of Third and Kansas streets. This business was not, however, greatly to his liking, and he disposed of his store and started work on the North-Western, then in the course of construction between this place and Rochester. Then he went into the general building and contracting business. In 1904 he retired. He is in excellent health, and is one of the substantial citizens of the city. He has been prominently identified with the Odd Fellows, and is one of the oldest members of that order in the city. He has also joined the Druids. The subject of this sketch has eleven children, twenty grandchildren, and eight great-grandchildren. The children are: Emma, wife of Louis H. Thurow; Sophia, wife of H.F. Gerlicher; Clara, wife of Fred J. Welty; Richard; Gustaf, deceased; William, deceased; Edward, Albert, Matilda, Otto and Carl.

Noted events in his life were:

- He received his citizenship in 1852.¹⁴ Came from Schleswig-Holstein in Denmark. Renounced allegiance to the King of Denmark
- He appeared on the census in 1900 in Winona, Winona County, Minnesota, USA.¹⁰ He Was The Census Taker For This E.D.

General Notes: Czech Immigration To Ennis, Texas
The 1880's

From the Cesky Hlas, Vol.12,No.4, November 1997 by Frank Mikula

The 1880's were tumultuous times in the land of Moravia. The native people were under the rule of the Emperor of Austria. Civil liberties were at a minimum, the economy was in a shambles, arable land had long ago been divided and subdivided, new farm land was impossible to obtain. Two and three families within a residence were common. Wars and rumors of war abounded. Native sons were being conscripted to serve and die for causes foreign to their homeland.

Letters from relatives in the new land were frequently arriving. Although conceding that the work was hard and the climate could be severe, the messages extolled the virtues of the home we so love, our great state of Texas! Everyone, it seemed, could own land, if they so chose. Crops were abundant, cattle for dairy and consumption purposes were everywhere, horses were in ample supply. Comfortable housing was being quickly erected. Numerous Moravian natives, suppressed Austrian citizens, began to crowd the offices of their village magistrates seeking official approval to emigrate. The applications, extant in official archives, portray in vivid detail the condition of the times.

Dateline New York - 25 March 1884.

Today the NEKAR, a sailing steam-assisted cargo vessel of German registry docked at New York Harbor. As is now common, she bore numerous immigrants to our country. Fortunately, the majority of them are destined to populate the frontier State of Texas and will be with us for only a brief stay. We wish them all good fortune!

The NEKAR was owned by the firm Norduetscher Lloyd of Bremen. From 1881 through at least 1885 she plied the Atlantic between Bremen and New York on a monthly basis. In addition to cargo, thousands of immigrants made the passage within her hold. Subsequent tales relate the hardships of this crossing - but that is another story.

Arriving in "Amerika" aboard the NECKAR on that cold, foggy, March day were the following souls. Most ultimately settled in the Ennis, Texas area and, today, their descendants have multiplied many hundred-fold and made enormous contributions to the homeland once adopted by their ancestors.

General Notes: He served in Revolutionary War in Colonel John Tapham's Regiment, RI, and marched to Quebec. (Narragansett Historical Register of Revolutionary Heroes)

Ancestors of Larry David WILSON

In 1850 Jonathan Brown's farm in Granville, Washington County, New York, consisted of 100 improved and 25 unimproved acres. The improved acres were valued at \$2,700 and the unimproved at \$230. The farm had 2 horses, 4 milk cows, 13 other cattle, 4 sheep, and 13 swine. The value of the farm animals was estimated at \$450. The farm produced 200 bushels of Indian corn, 100 bushels of oats, 16 lbs. of wool, 600 lbs. Irish potatoes, \$20 worth of other products, 200 lbs. butter, 30 tons of hay, 20 gallons molasses, and \$40 worth of animals slaughtered that year. (1850 Production of Agriculture attached to 1850 census, p. 97-98).

names brother Nathaniel and his "mother";
cousin Sarah (d/o Beriah) to be brought up by his mother;
brothers John, Samuel, Ebenezer, William, Joseph, sister Mary;
Uncle John Acy;

father Brown and brother John to be executors.

(Gershom Browne is thought to be older than the other children, supposed
son of a first wife. "Mother" would be Mary Acye, actually his
step-mother,

but if she raised him, she would be the only mother he knew. Apparently
he had taken responsibility for the daughter of his brother.)
